

EDITORIAL

Welcome to the first volume of Craniofacial Research Connection Journal (CRCJ). CRCJ proposes to ease the spread of academic production carried out by graduate students and professors in the dentistry field. In this first edition, we covered the event "Women in Dentistry _ Women in Dentistry_ first meeting" held on March 6, 2021, in Sinop city, Brazil.

The event celebrated Brazilian women's achievements within dentistry and shed light on the small number of women in some dental specialties, research, and event speakers. Thus, the event had female speakers solely, and a scientific posters exhibition carried out by women, aiming to value and encourage women to engage in scientific events.

The event had a limited number of participants to avoid crowding due to the COVID-19 pandemic. In this inaugural edition, we published the abstracts addressed by undergraduate students, dentists, and professors within the dental field in the northern state of Mato Grosso in Brazil.

Good reading
Sincerely

Prof. Thereza-Bussolaro
Editor-in-Chief
